

# PATRICK FINUCANE

M.Arch - Ecology & M.UP  
Bachelor of Science - Architectural Studies  
Architectural Visualizer  
Designer

## INTRODUCTION

Hi! My name is Patrick. I'm a student in the joint Master of Architecture and Urban Planning program at UWM SARUP. My passion in architecture lies in moments in the built environment that uplift people's lives daily. I am interested in learning how teams collaborate to make beautiful, simple, intuitive spaces that improves the quality of life from the building to neighborhood scale.

I am driven to deepen my knowledge of designing and building architecture, systems, and construction methods that have minimal impacts on their environment. A question that I like to ask myself everyday is, how can we improve the efficacy of our work and limit their environmental impact?

I have reached proficiency with a host of software both 3D and 2D software to produce both project branding and building information modeling. My interest in new software helps me learn new software quickly. Through the urban planning program I have learned analytical and statistical skills in creating detailed reports on economic areas. I'm excited to find a team to collaborate, learn and challenge my skillsets.

Thank you!

## EXPERIENCE

**Graduate Researcher**      Dec. 2021-June. 2022      **University of Wisconsin Milwaukee**

*Assisted professor Trudy Watt in the early stage development of the Living Well Initiative founded at the UWM School of Architecture and Urban Planning. I helped to develop branding and a pitch deck for attracting funding sources to support the collaborative's initiatives.*

**Undergraduate Research Assistant**      Feb. 2020-Dec.2021      **University of Wisconsin Milwaukee**

*I helped to establish the Phase 3 Collaborative research group at UWM SARUP. I helped establish early logos, graphics, helped organize backend file management and remote work systems. The collaborative researched architectures impact on older adults, including those experiencing dementia.*

## EDUCATION

**Bachelor of Science Architectural Studies**      Dec. 2016- Dec. 2020      **University of Wisconsin-Milwaukee**

- Nominated for and participated in the business writing competition - Fall 2017
- Received 3 SURF grants to participate in paid research from Spring 2020-Summer 2021

**M.Arch**      Dec. 2020- Dec. 2023      **University of Wisconsin-Milwaukee**

- Nominated for Superjury for the vert district project - Spring 2021
- Accepted into the Marcus Prize studio with Ensemble Studio - Fall 2022
- Helped with the onboarding of new team members

**M.UP**      Dec 2020- Dec. 2023      **University of Wisconsin-Milwaukee**
